

Item Name : Inclined Plane And Friction Board

Item Code : 1341.2008.01

Item Description :

A wooden plane board 800x75mm hinged at one end to another wooden baseboard and provided with a pulley at the other. A movable block present between baseboard and inclined plane enables the inclination of the plane to be varied. Includes reversible friction slider 100x65mm, with its one size cut to have half the contact area to facilitate the observation of results in different situations. Complete with metal roller and weight pan.
